

3 MEET DEATH IN CHRISTMAS FIGHTS

MANY VIOLENT CRIMES DURING CELEBRATIONS

Two Murdered, One Suicid—Two Others May be Victims

Two persons, a man and a woman, were murdered and another man was beaten to such an extent that he is not expected to live, and another who was seriously injured is dead, while one of the murderers committed suicide, it was learned yesterday in Alberta, according to reports of the police and reporters of the Alberta Provincial Police.

Shooting a woman named Mrs. Mary Stewart, 26, at the time she was gratifying her with an axe, was the second of the two incidents when the axe was used. The second seriously injured Miss Teeks when he suddenly leaped onto the scene and then turned the axe on the woman, who was in the basement at Lafond, Alta., near St. Paul. Mr. Teeks, 26, was shot in the leg. Miss Teeks is shot through the leg and with several drops of blood it is feared that she will die.

Murder Details

Little details of the fatalities were contained in the first reports of the incidents but it is believed that the cases are connected with the Christmas parties at which there was much liquor. The first fatality occurred just after the woman had been decapitated and the murderer committed suicide.

Closed over the head during a celebration at Wayne, Alta., near Drumheller, was James Lafferty, 21, who, on the same night, while Godfrey, 21, was also closed over the head at Drumheller, several hours later, in a room at the home of Mr. and Mrs. Lafferty occurring during a brawl.

While wounded in the head and an unconscious condition, an unknown man was found on the railway tracks near the town of Lethbridge, Alta. Cost Branch, late Monday evening, the man, not known to be unconscious, was found and expected to live. His assailant is unknown.

The Provincial Police at Lethbridge, Alta., is investigating, spending much of Christmas day in his search.

Pussycat Johnson
Ready for the Fry

Associated Press

SHANGHAI, Dec. 26.—William (Pussycat) Johnson, arrived at the Peking railway station from Peking Monday en route to India for the World Cup. He will make a fortnight's stop at the British embassy in an attempt to rally the league members.

"The blood is in my eye," he said. "The Pussycat will have to limp for the world's endurance trophy. The island had better hunt cover. I may be dead."

He said that Japan was rapidly going to war and that the Chinese empire would be dry in 15 years.

THREE MINERS KILLED

CUENCA, Spain, Dec. 26.—Three miners were killed in a mine explosion in the town of Almudena, 100 kilometers from Madrid. An undetermined number of other workers were entombed by the blast.

The Weather

Local Forecast: Fair and moderately cold.

Highest temperature: Tuesday, 40°; Wednesday morning, 20°; high temperature, 10°; 23°; increasing.

Sun rises Thursday, 6:25 a.m.

Wind: North, 10 to 15 m.p.h.

Temperature: 30° to 40°.

Clouds: 20 to 30%.

Humidity: 60 to 70%.

Wind: North, 10 to 15 m.p.h.

Temperature: 30° to 40°.

Clouds: 20 to 30%.

Humidity: 60 to 70%.

If It Will Help Alberta The Bulletin Is For It

WEDNESDAY, DECEMBER 26, 1928

"PENN" IMPERIAL POSTAGE

The Dominion Government gave the public a "penny postage" rate in the form of reduced taxation, by restoring the "penny postage" rate from Canada to all other parts of the Empire. Hitherto the rate has been three cents. A cut of one cent in the cost of sending a letter to the British dominions does not sound very impressive. But stated in terms of a 33 1/3 per cent cut in postal charges, the concession takes on a much larger significance. In the course of a year the aggregate saving of a letter to the dominions will be very considerable; or else there will be very many more letters sent from Canada to other parts of the Empire. In the out-working the results will probably be found to extend in both directions.

Canada in this is giving another lead to the Dominions for closer contacts, more inter-communication, better acquaintanceship, more trade, and a growing sense of the Empire. The time has come for the armaments of the other Dominions to respond by like concessions to their own people may be expected and is to be hoped. In proportion as they do so there will be a sense of security, an awakening of interest, and a strengthening of the commercial relationships among the British nations. Perhaps the present generation will see the day when it will be possible to send a letter from the Yukon to the far corners of India without delay. That is the objective towards which the post departments of the Empire should work, and to which the re-establishment of penny postage from Canada to the other British countries invites attention.

WHAT ABOUT CROP REPORTS?

Speakers at gatherings of farmers at most points in the west have been doing their best to keep the public quiet this year because the newspapers during the summer published statements showing that conditions were favorable and the outlook for a bountiful harvest. On some occasions the Dominion and provincial governments have been doing their best to demoralize the market, the claim being that the official crop reports given out at Ottawa and at the provincial capital tended to depress prices, and thus cheated the grower of the full value of his crop. In fact he could and should have got his share. The crop is to be inferred, more or less wide spread objection among farmers to the publication of crop reports; an objection that is not confined to the circles of the grower, but extends to the agricultural press which extends to the publication of reports, however carefully compiled, which present the yield as likely to be large and the quality good. If the accusers are correct in their reasoning, the more certain these reports are the more damage they do.

These are serious allegations, and should be dealt with in a candid way. No good would be kept from the farmer from his crops even by publication of reports, as he could and would well and properly yield well when that is the case. It is the desire that the Governments and the newspapers, and all other parties, do not enter into a conspiracy of silence, and say nothing, while the market is being demoralized. The market is being demoralized at a railway station in Alberta, and the market is being demoralized at a school in the middle of the Yukon. Lamouroux Bros. have about 200,000 feet of lumber in the Yukon, and are planning to make considerable improvements to the steamer Minnow this winter which will increase her carrying capacity to 1,000 tons. The steamer Minnow, the Peace and Bear Hall, are on the Calgary trail. J. Lee had his steamer Minnow at the port of Lethbridge, and was only saved after great exertions. The ice was still running at the last account.

Do You Remember?

FOOTY YEARS AGO

From the Edmonton Bulletin, Saturday, Dec. 22nd, 1928.

A rich gold mine was found two miles west of Edmonton, and the miners were soon removing the mountains west of Edmonton. They are now mining.

W. G. Clegg, D.L.B., and party arrived at Victoria on Thursday, returning east from a trip on the Yukon River, and were met by a large crowd.

The party came from Long Portage overland to Victoria.

It is estimated on the authority of the threshers that 40,000 bushels of grain have been threshed in this vicinity, and the grain is being sent to the east in carts, and the remainder about equal quantities of flour and meal.

Mr. Martin was born re-engage as teacher at the Edmonton Education public school at a salary of \$1,000 per year.

Lamouroux Bros. have about 200,000 feet of lumber in the Yukon, and are planning to make considerable improvements to the steamer Minnow this winter which will increase her carrying capacity to 1,000 tons. The steamer Minnow, the Peace and Bear Hall, are on the Calgary trail. J. Lee had his steamer Minnow at the port of Lethbridge, and was only saved after great exertions. The ice was still running at the last account.

THIRTY YEARS AGO

From the Edmonton Bulletin, Thursday, Dec. 24th, 1898.

Mountain ball tonight.

Mr. Berg, boxer, has issued a calendar.

Mr. and Mrs. Mathews were east on Saturday.

O. J. Bryan, principal of the Edmonton public school, has been to the United States.

Christmas entertainment in the Methodist church.

Mr. and Mrs. Briggs of South Edmonton went east on Saturday.

Local return from Europe on Wednesday.

Colin Johnson arrived Thursday from the Landing.

Mr. and Mrs. Johnson are to participate for a charter for a railway from Asbestos to Dawson.

TWENTY YEARS AGO

From the Edmonton Bulletin, Thursday, Dec. 24th, 1908.

London—Castis, who is in Europe, has been ousted from the position of Venetian, and succeeded by Gomes.

Montreal—Baptist Church of Alberta has agreed to the severance of negotiations.

Pittsburgh—several farmers and two bankers approached the city council to demand that the city

of Toronto—F. William and Port Arthur have a share in the railway.

Toronto—The Bay terminus of the O.P.R.

TEN YEARS AGO

From the Morning Bulletin, Wednesday, Dec. 22nd, 1918.

Paris—King Nicholas of Montenegro in a statement outlined the aspirations of that country. His statement was to the effect that Montenegro, in its present condition, was unable to stand alone, and that the only way to save the country was to join the Central Powers.

It is understood that the University of Alberta will receive an interesting assortment of the airplane which is being turned over by the British

Air Ministry to Canadian universities.

Edmonton business men will learn with very great regret that Mr. Fred W. Doherty, for several years manager of the Royal Bank in this city, is being transferred to Calgary. Mr. Doherty has come to be widely known and highly esteemed here as a banker and a citizen, and his removal will be a loss to the community. He will be particularly missed in board of trade circles, having been a very active and useful member of that organization. Under his presidency last year the board made a very consider-

able extension of its membership and took an aggressive part in promoting movements of many kinds which had for their object the progress of the city. His many Edmonton friends will hope that Mr. Doherty will find a similar field of usefulness as he has been in Edmonton, and will congratulate the southern city on gaining a public-spirited citizen and a very capable banker.

Christmas, 1928

By EDGAR A. GUST

God of us all beneath Thy Star
Be with Thee children and far,
And bring peace of Christmas tide
In every troublous heart.

The young eyes gazing at the tree
See the beauty of times past,
And find the little ones fair,
But miss the love which placed them there.

They never grieve to bright them
How fragile are the lights which gleam
And make the world look gay,
But these wonders all were wrought.

The little girl and little boy
Both have a smile on their lips,
And never gives the tender thought
By which these wonders all were wrought.

So we the older children take
The gifts of the little year make
And all life's common pleasures fair,
And make the love which placed them there.

God teach us all to understand
The love which placed them there,
Open our eyes that we may find
They tender love for all mankind.

New Pegs

By DR. FRANK CRANE

Time means nothing unless it is hooked up with events.

You can't visualize time. What you see when you remember past events is the events that happened in them.

Time means nothing unless it is held up by pegs.

Time means nothing unless it is the usual pegs of time.

Time means nothing unless it is the usual pegs of time.

Time means nothing unless it is the usual pegs of time.

Time means nothing unless it is the usual pegs of time.

Time means nothing unless it is the usual pegs of time.

Time means nothing unless it is the usual pegs of time.

Time means nothing unless it is the usual pegs of time.

Time means nothing unless it is the usual pegs of time.

Time means nothing unless it is the usual pegs of time.

Time means nothing unless it is the usual pegs of time.

Time means nothing unless it is the usual pegs of time.

Time means nothing unless it is the usual pegs of time.

Time means nothing unless it is the usual pegs of time.

Time means nothing unless it is the usual pegs of time.

Time means nothing unless it is the usual pegs of time.

Time means nothing unless it is the usual pegs of time.

AMUSEMENTS

AT THE NEW ENPIRE

Optimum vaudeville, that elusive yet remarkable sub-division of the entertainment scene, is being done a few more bills of this department. The bill is one of the famous "small" ones, with a few well-known names, three masters and doing the "all around" work of the show.

Elise and Pauline, assisted by a "Flasher" for the North. It's certain that Horace Greeley never saw such a well-organized audience as the one that attended the opening.

When the curtain descended, a well-nigh capacity audience was on hand to witness the opening of the manifest good things that Milt MacGraw, George M. Findlay had "Go north, young man, go north."

SHE TRIED TO BEAT THE DEVIL IN HIS OWN PLAYGROUND

She didn't know there was a "piper" to pay—and that the last of Broadways anticipates to the beating of broken hearts!

Vaudeville

It's just as fine a bill we ever had—and we have had some good ones

See Tomorrow's Newspapers for the Dope

stated of advising the young man to "go west." Here is a skating scene which no time has ever been bettered.

Rosie Aves and Dorothy Darling in "Who-Me?" have a pleasant, some what sentimental, and some instructive "passing" scene.

Whoseome and delightful as the house.

Elise and Pauline, assisted by a "Flasher" for the North. It's certain that Horace Greeley never saw such a well-organized audience as the one that attended the opening.

When the curtain descended, a

"Sal on Two" was as busy, dash and exuberant as ever. Two smooth comedians have been trod the boards for a long time.

The whole troupe then combined in a scene with the famous "Black Dog" with which the current curtain raiser is associated.

It is a cleverly worked out act and will be magnificently presented by all.

Some first rate moves round out the act.

Frederick Holden-Sunburst and his troupe are in excellent form, especially both in the orchestra numbers and in accompanying the vocalists.

What a treat this was.

Some first rate moves round out the act.

Elise and Pauline, assisted by a "Flasher" for the North. It's certain that Horace Greeley never saw such a well-organized audience as the one that attended the opening.

When the curtain descended, a

well-nigh capacity audience was on hand to witness the opening of the manifest good things that Milt MacGraw, George M. Findlay had "Go north, young man, go north."

The Bulletin's Page of World News Told in Pictures

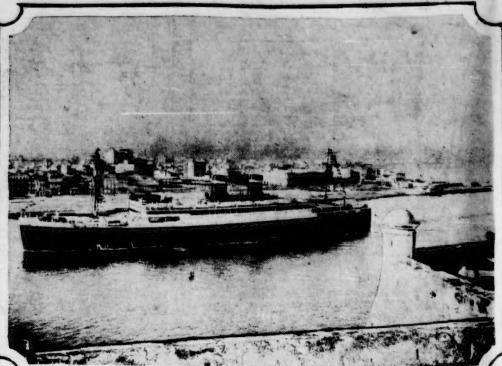

Sociable Staghounds : Stylish Nuptials : Passing Morro Castle

CAMARADERIE OF SPORT:
The Berks and Bucks staghounds make friends with one of the young members of the hunt at a meet in England

ARLINGTONS:
Lord Arlington of Gorvel and Lady Mary Ashley Cooper, wedded at Westminster

FIRST TRIP OF LARGEST AMERICAN-BUILT SHIP:
The S.S. Virginia, largest American-built steamer, passing historic Morro Castle at entrance to Havana, on her maiden voyage to Cuba

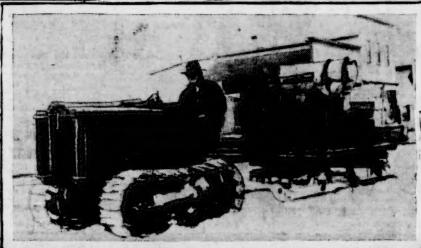

HER NOSE IS VALUABLE:
EVELYN Mount, Oklahoma co-ed, lost 1-8-inch of her nose in an auto smash and was awarded \$22,500 damages

HONOR LINDBERGH:
Harmon trophy of the International League of Aviators was presented to the man who has done the most for aeronautics this year. Presentation was made at the Air Conference in Washington

HOW OFFICERS GUARD THE HARBOR AT NEW YORK:
A close-up of the gun of a police boat, one of the fleet which patrols the harbor of Gotham day and night

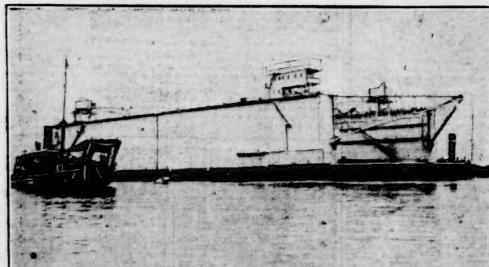

SIR H. RIGBY,
military surgeon to King George V, given to his majesty's household and surgeon-in-ordinary to the Prince of Wales

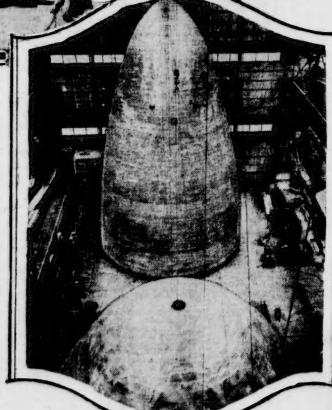

FLYING FINN ARRIVES:
Paavo Nurmi photographed on his arrival in New York to take part in long distance races

FIGHTS MALTA FEVER:
Partially recovered from her fourth attack of Malta fever, Alice Evans, bacteriologist at Washington, continues her fight against the deadly disease

DOCK WHICH FLOATED HALF WAY AROUND WORLD:
Middle section of what will be the largest dry dock, with a weight of 12,350 tons, left England five months ago for the new naval base at Singapore, has reached end of long journey

BUILT AS EXPERIMENT:
All-metal dirigible, 150 feet long with a diameter of 50 feet, made entirely of duralumin, being inflated near Detroit to test new theories of construction of such craft

KING NEPTUNE INTRODUCED TO PRESIDENT-ELECT:
"Crossing the Line"—the customary ceremony when a ship passes the equator—King Neptune being introduced to (from right) Capt. Kimberly of the U.S.S. Maryland; Mr. Hoover and Mrs. Hoover

CONEY ISLAND "MINING":
Washing sand from the beach. The "pay yield" is in coins, trinkets and other valuables

TROPHY OF A HUNT IN PARRY SOUND DISTRICT:
Big Bruin made his presence known when members of a hunting party were in his immediate neighborhood, and W. A. Price of Toronto shot him

NEW ROCKET CAR WAS GIVEN SUCCESSFUL TEST:
Snapped with the engineer who built it, Curt Volkhart, on the Avus Speedway, Berlin. It is very similar to the Opel rocket car

FIELD GALLOPING PAST AFTER A RIDER HAD BEEN SWIFTLY UNSADDLED:
The cameraman was all set for this spill of T. Morgan, who was thrown from Vanishing Lady in the Vauxhall Selling Steeplechase at Kempton Park, England. The race was declared void and re-run

Maple Leafs are Whipped by Superiors in Holiday Hockey Game 6-1

MAROONS DROP XMAS CONTEST TO LEAFS 4-1

Referee Plasters \$100 Fine On Manager Connie Smythe

ARENA GARDENS, TORONTO, Dec. 26.—The old Maroons, who'd handed the home town fans a present here last night in the shape of a second-place finish, were beaten by the Maroons Maroons. Despite a weak start, the Maroons won the game of Art Duncan and the early game of Red Horner, young newcomer, the last two games were won by the Leafies.

It was a dinging battle that saw a total of 23 penalties and a fine of \$100 imposed on Connie Smythe of the Leafs for excessive cheering before O'Leary's attempt to an all-out effort.

The casualties of the hectic battle included Art Duncan, Horner, a cut for Art Smith and a gashed nose for Horner.

The Line-up

Maroons—Dunn, Hicks, Smith, W. Moore, Lamb, Robins, Phillips, Trotter, Tamm, Tamm, McLean, Blair, Day, A. Smith, Carson, Hale, Cox, Blair, Horne, Lowery, Summary

Fri. 1. Toronto, Carson, 4:32.

2. Montreal, Lamb, 12:19.

3. Toronto, Day, 10:28.

4. Toronto, Blair, 14:05.

5. Toronto, Lowery, 3:18.

RANGERS LOSE TO AMERICANS

"Rabbit" McVeigh's Goal In Third Period Only Score

NEW YORK, Dec. 26.—The New York Americans scored a double-timer from the Maroons in the first period and again in the second, and were ahead of the Maroons for the first half of the game, but the Rangers, who had been held scoreless for 100 minutes, came on strong in the last period and won the game.

Rabbit McVeigh, speed sub, was the star of the show, and his "fast and exciting" contest three times in the last period, the first two of which were very good. The Maroons' team had two goals in the last period, but the Americans were the leaders of the National Hockey League.

The Line-up

Maroons—Hale, Smith, A. Smith, Beaupre, Dunn, Bill Cook, Bill Cook, Murdoch, Thompson, Keeling, New York Americans—Winters, Brown, Hines, Sheppard, McNeigh, Reilly, Dry, Summary
